Telephone / E-Mail:	**info@smartvrlab.nl**

EXPERIENCE REPORT *(approx. 3 pages + more photos if applicable)*

1) Traineeship institution
Please give a brief description of your host traineeship insitution.

YouSurge B.V. is a startup located in Amsterdam Netherland. They are working on Smart VR Lab's software platform which is a Content Management System for Virtual Reality (VR CMS) devices for the B2B market. Smart VR Lab provides an easy solution to upload and manage VR apps, 360 Videos and 360 Photos on VR devices.

2) Searching for a traineeship
How did you find your traineeship? Are there any recommendable links or other helpful tips you would like to share?

I found this internship through website: https://erasmusintern.org

3) Preparation
How did you prepare for your traineeship in terms of language, intercultural, professional and organisational aspects? Are there any recommendable links or other helpful tips you would like to share?

I already have some knowledge and experience in the field of software development and Unity development. To get familiar with the work. I need to go through their projects and do some research before starting with the work. Luckily the team is very professional and supportive so I find no difficulty to begin with my work.

4) Accommodation
How did you find your accommodation? Are there any recommendable links or other helpful tips you would like to share?

At first when the corona situation was still very bad I couldn't come but after everything became better. One of the founders of the company offered me a room in his flat.

5) Traineeship
Please describe the tasks and / or the projects carried out during your traineeship. In which way were you mentored and integrated? How were the working conditions? Did you have especially positive or negative experiences?

My task was working in Unity 3D on the Vu-Neuro project. I need to create a medical 3D web application to visualize a human brain anatomy for a student in the medical department.

6) Acquired qualifications
Which qualifications and skills could you acquire or improve during your traineeship?

I acquired better skills in software development, communication with the team members in the company as well as planning meetings with the clients.

7) Country-specific features
Are there any specific traineeship regulations in the target country that affected you as an Erasmus trainee (e.g. France: housing allowance, convention de stage? If yes, which ones? Are there any recommendable links or other helpful tips you would like to share?

No

8) Visa, residence and work permit (only for international students)
Which prearrangements had to be made in terms of visa, residence and work permit? Are there any recommendable links or other helpful tips you would like to share?

No, I didn't make prearrangements because I have german residance permit and it allowed me to stay there for a short period of time.

9) Other
Is there anything else you want to let other students know?

10) Conclusion
What is the conclusion drawn after your traineeship experience abroad?

To be able to work in a very energetic startup company in Amsterdam gives me one of lifetime experiences. To have an opportunity not only working in a professional environment but also the chance to talk to founders of a startup really opens my view a lot. I believe not only my technical skills have vastly grown but also my personality has grown to continually develop and reach my full potential.
